We supply major retailers around the world, including Europe, USA, Canada, Japan, South Korea, Australia, and more.

Why Choose Our Services?

The Oriental Group focuses on delivering Argan oil and our other products at the highest level of quality. We strive daily to ensure that what we provide to our retailers meets and exceeds international standards.

Certified Organic: All our Argan Oil is certified organic to the highest CCPB and USDA standards. We only ship products that exceed international standards to ensure the best in quality for our customers. This means that our extra virgin Argan Oil is 100% organic product and highly sought after around the world.

Environmentally Conscious: The raw materials that we use in our products are all environmentally friendly and will do no harm to our planet. This means that you can trust our products to be safe to use as indicated. We believe in protecting the environment and use proven methods to ensure that our products meet and exceed all environmental standards.

All-in-One Service: Our skilled employees handle every detail when it comes to the stamping, printing, stitching, and packing process. This ensures maximum efficiency and the highest quality so that you only get the best products from our company. Overseeing the process is our quality control department that continually looks for ways to improve the quality of the items we deliver to you.

The Oriental Group provides our retailers with high quality Argan Oil and many other products that are proven to be very popular with their customers. If you are looking to expand your line of cosmetic and food products, we are here to help you succeed. Let the Oriental Group be your supplier of the best in Argan Oil, essential oil, and the many products we provide.

Bulk Argan oil

The Bulk Argan oil has become a charming entrée since it was introduced into the market. Essentially, this product still holds the ace of the legendary Argan oil that was first embraced by the Berber-speaking people of Morocco. It has been able to break ranks with the conventional fashion products. Furthermore, the rich package in which it is offered in today's world makes it a golden channel that any smart individual must not allow to slip. In tandem with the times, most endorsements from beauticians about the efficacy of this product simply show that it has gained dominance in the market.

Also, the increase in the demand of Bulk Argan oil has made it to be a top line player in the different markets where it is sold. We must emphasize that the power of the product has been opening doors to places that are a bit conservative about the acceptance of beauty products. In the light of this, we will continue to produce a rich condiment of the Bulk Argan oil to match the demands that it is currently servicing in the global market.

Since the framework for giving the world one of the best beauty tools was set in motion; the Argan oil in bulk has kept breaking new frontiers and giving many positive benefits. It is cost-effective when compared to the high professional rates of doing beauty surgeries in any part of the world. Argan oil in bulk keeps delivering with precision due to its richness in Anti-oxidants, Vitamin E, Vitamin A and other dynamic nutrients. Consequently, it has capped its wonderful performance with an ever-increasing acceptance based on the results from various clinical labs that attest to its proficiency.

Finally, the Argan oil in bulk is a sublime addition to the world of beauty, and its benefits are worth every investment made. It is a composite beauty tool that meets the highest specifications in terms of manufacturing and other salient metrics.
