Ghassoul Clay Powder

The rhassoul or ghassoul is a natural mineral clay mined in the Atlas Mountains of Morocco since the eighth century. It cleans the body and has been used by Moroccan women for centuries to care for their skin and hair. Rhassoul contains silica, iron, magnesium, potassium, sodium, lithium, and trace elements.

Ingredients :

INCI : Water ; Moroccan Lava Clay ; Glycerin ; dehydroacetic acid and benzyl alcohol ; Argan oil and Polysorbate 20.

How to use :

- The Moroccan Rhassoul clay powder can be used as a daily cleanser instead of soap.
- The Moroccan Rhassoul clay powder can be used as a hair shampoo, the clay enhances the hair texture and volume, softens the hair and eliminates dandruff.
- The Moroccan Rhassoul clay powder naturally has a powerful, negative electromagnetic charge, while the majority of toxins under your skin have a positive charge. This makes Rhassoul treatments ideal for drawing out impurities and detoxifying your skin.
